K12Planet Parent/Student Sign-Up

We are very pleased to announce a new school service that we are offering at Lynden Christian High School. It's a new, easy-to-use website called k12planet.com. It gives you and your children secure access to a copy of the school's central information system, so you can see information that is specific to your child's performance in class. Grades, attendance, conduct, assignments, homework, events, and other useful information will be accessible from your home or office. All you need is an Internet connection. Your student will also be able to access assignments, homework, grades and other information 24 hours a day. Eight teachers will trial k-12Planet during the spring semester. We anticipate having every faculty member on line by the start of the 2003/2004 school year.

If you are interested in learning more about K12Planet, visit the website at www.k12planet.com and you can read and see what it is all about. This is an overview and not the same as our school's secure website version of K12Planet. We will also have information for you at the upcoming course registration nights.

To get secure password access to your account, please fill out the form below and we will set up your parent account. We will then mail you the account information and a set of directions for accessing this resource. We will also issue to you your children's access passwords at the same time. Rest assured that K12Planet.com is a private website for our school. Only people inside the LC community will be authorized to "enter" K12Planet. Each and every single authorization has to be applied for individually to ensure total privacy protection. K12Planet has taken stringent and rigorous precautions to ensure safety of students using a web-connected device. At no time will any personal information be requested or any sensitive information exchanged without the parent's express consent. This is guaranteed.

If you don't have a computer at home, you can still access K12Planet from our library or computer lab, or from your local public library. Any Internet connected computer can be used.

Sincerely,
H.S. Technology Committee

Yes! I would like to sign up for K12Planet.
