

LYNDEN CHRISTIAN SCHOOL

Sustainability and Food Service Policy

POLICY STATEMENT

Lynden Christian School seeks to be a caretaker of God's creation and an agent of renewal for creation in our daily lives and as a collective community. We seek to live as part of the natural world in ways that mirror the care and love God has for his creation. Sustainable living is the daily working out of the stewardship mandate (Genesis 2:15). We believe that being a steward of creation commits us to reducing the amount of waste we produce.

PURPOSE

In the event food service is needed, Lynden Christian School asks that such items as plastic and Styrofoam not be used. Instead, please use products that can be composted or recycled.

GUIDELINES

Think compostable!

Avoid plastic and Styrofoam tableware!

Use eco-friendly, biodegradable products:

- *paper cups (cold or hot) & sleeves
- *PLA (polylactide) straws
- *fiber/paper bowls, plates, & lids
- *biodegradable utensils
- *fiber trays/clamshell boxes
- *compostable garbage bags
- *paper towels & napkins

For further information and ideas, check out worldcentric.org/ and www.solocup.com/products

Also, check out LC's recycling center! www.lyncs.org/forms/recycle.html

REDUCE – REUSE – RECYCLE – COMPOST
