Description

BAI Environmental Services is a locally-owned industrial contractor who has been in business for over 30 years. Although much of the work they do would be considered mundane, “blue collar” or low-key, they are still able to positively impact the community in which they live and work. They strive to create value and pursue excellence in their work activities and day-to-day decisions. This annual scholarship was established in 2014 with the hope of enabling graduates to pursue a career in the trades. In the decades to come, there is a forecasted shortage of labor resources in the trades’ professions. It is BAI Environmental Services’ hope that this too will be seen as an honorable goal and career path in working in God’s kingdom.

Criteria

- Graduating senior who plans to continue his/her education at a four-year, two-year or technical college
- Must be planning on pursuing a career in the trades
